

MARCH 22
WORLD
WATER DAY

UNICEF RESEARCH

Almost **600 million children** or **1 in 4 children** around the world will live in areas with **extremely limited water resources** by 2040, according to a UNICEF report. *"Water is elemental. Without it, nothing can prosper, but millions of children worldwide have no access to safe water, which threatens their lives, undermining their health and endangering their future."* had said the Executive Director of UNICEF, Anthony Lake.

TEMAK CONTRIBUTION

In **TEMAK**, we intensify our efforts and provide **high quality services and solutions** contributing in our own way to confront the problem of water scarcity.

It was a great honour for us to win the **2nd Worldwide Award for Innovative Projects, "Mohammed Bin Rashid Al Maktoum Global Water Award" (Global Water Award)** in the competition for finding innovative solutions **to the problem of water scarcity** around the world that took place in Dubai in 2017.

In the same year, we were awarded with the **Golden Award** at Best Cite Awards, in particular in the **Green City category - Water Resources Management - Desalination**.

We participated as Main Sponsor in the **International Water Conference (Desalination for the Environment Clean Water and Energy)** that was organized in September 2018 in Athens.

We broaden our knowledge and constantly invest so that **WATER**, this valuable goods, to be **affordable and of excellent quality for everyone**.

The Goal is: **Clean, Qualitative, Drinking Water** to Everyone, for a **Better and More Secure Future**.
