

CASE STUDY (019-M-E)

Garden, Kuwait

Seawater Desalination Plant 1.800 m³/day

DATE OF IMPLEMENTATION

2018

PROJECT

A seawater desalination plant was delivered by TEMAK S.A. to the glorious cultural center “Sheikh Jaber Al- Ahmad (JACC)”, known as “the Kuwait Opera”, to cover the needs of the fountains’ operation and gardens’ irrigation.

The water treatment system, which was installed in January 2018, is designed for feed water of 40.000 ppm TDS and with a daily capacity of 1.800 m³ of a water quality of TDS<400ppm.

With the application of TEMAK S.A. best cost and technical effective solution, the Opera visitors are now able to enjoy a marvelous and vast ever green garden.

Since 1980, TEMAK has been at the side of local communities covering their needs with reliability and consistency, having a full range of certified water treatment products.

Thanks to the systems manufacture in Greece and the high expertise of its specialized staff, TEMAK is able to offer total water treatment solutions, from study and design to manufacture and installation of required systems.

The 750.000 m³/day of clean potable water or water for general uses, produced daily from TEMAK’s installed systems in Greece and 26 abroad countries, constitute the proof of our experience and know-how in water treatment.
