

CASE STUDY (023-I-E) **Juice Production Industry, Romania**

Water Treatment System with total Capacity 175 m³/day

DATE OF IMPLEMENTATION
2018

PROJECT

TEMAK S.A. installed a Brackish Water Treatment System in a juice industry in Romania, producing 175 m³/ day of water of a quality of <40μS / cm for use in the production line. The operation of the unit is monitored by a PLC and analog instruments and is remotely controlled.

Since 1980, TEMAK has been at the side of industrial sector covering its needs with reliability and consistency, having a full range of certified water treatment products.

Thanks to the systems manufacture in Greece and the high expertise of its specialized staff, TEMAK is able to offer total water treatment solutions, from study and design to manufacture and installation of required systems.

The 750.000 m³/day of clean potable water or water for general uses, produced daily from TEMAK's installed systems in Greece and 26 abroad countries, constitute the proof of our experience and know-how in water treatment.
